We encourage all parents to take a few minutes to become familiar with its contents. In this handbook, we present our operating philosophy, programs and goals, various program descriptions, Covid-19 protocols as well as a number of items which we believe are important for you and your child to be aware of in order to get the most benefit from our school.

Our facility has been inspected and approved by the Toronto Public Health and Fire Department. # **Program Statement**

Our goal at Alive Montessori & Private School is to provide the best possible start for our children through proper education, thereby instilling a life-long love of learning in every child. We aim to create a safe, caring and fun environment where every child will learn and will become more and more confident as he or she gains in abilities.

Alive Montessori & Private School is consistent with the Ministry of Education's policy by operating a program that constitutes high quality childcare, early years programming and pedagogy that supports children's learning and development. Our mission is to provide an environment rich in purpose and experience so as to inspire, motivate and empower children to reach their full learning potential through implementing the four foundations of early learning: belonging, well-being, engagement and expression.

### Our Goals and Approaches to Learning

Goal: To plan for and create a positive learning environment and experience in which each child's learning and development will be encouraged and supported.

Alive Montessori and Private School's integrated program develops concepts and skills sequentially throughout the levels, so that all students are being prepared for the challenges of the future.

Although currently situated in a church, our curriculum is **non-religious** and we accept students of all faiths, creeds and backgrounds.

In striving for academic excellence, the school concentrates in the development of skills in literacy, numeracy, critical thinking, research, problem solving and communication. The integration of computer technology enhances the curriculum.

Academics are balanced and complemented by art, music, dance and physical athletics, all which promotes and cultivates artistic expression and physical health.

All children are given the means to progress at their own pace and to achieve to the best of their abilities. The dignity and self-esteem of the individual student is paramount.

Students of Alive Montessori and Private School have the opportunities to take risks, to voice their opinions and to become leaders. They learn to voice their opinions to affect changes within the school environment. They participate in activities which promote social and multicultural awareness, cooperation, leadership and that which will prepare them for the challenge of a more complex society.

### The Montessori Method

In the Montessori philosophy, it is understood that the child learns best within a social environment, which supports each individual's unique development.

Dr. Maria Montessori developed her Montessori Method, based on her own scientific observation of young children's natural development. She was the first woman in Italy to graduate from University with a medical degree, and after several years of practice, she turned towards education. Based on her several years of study and observation, she opened a house for children whose minds had not yet been challenged or educated before. Her ideal environment provided the children with developmentally appropriate material that allowed for experiences that contributed to their growth of self-motivation and independent learning.

The most important goal of a Montessori Program is to help each child reach full potential in all areas of life. Montessori activities promote the development of social skills, emotional growth, physical coordination as well as cognitive preparation. The curriculum, under the direction of a qualified Montessori teacher, allows the child to develop self esteem, and it provides learning experiences from which the children create their knowledge.

In order for self-directed learning to take place, the whole learning environment, the room, materials and social climate must be supportive to learning. The teacher gains the children's trust, which enables them to try new things and build the child's self-confidence.

Dr. Montessori's observations of the kinds of things which children enjoy and go back to repeatedly, led her to design a number of multi-sensory, sequential and self correcting materials which facilitate the learning skills and lead to the learning of abstract ideas by the construction of knowledge.

The teacher functions as a designer of the environment, resource person, role model, demonstrator, record keeper and observer of each child's behaviour and growth. Children are free to work at their own pace with materials they have chosen, alone or with others. The teacher relies on his/her observations of the children to help them. The aim is to encourage learning with materials they have chosen, alone or with others. The teacher will determine which new activities and materials may be introduced to the children. The aim is to encourage active, self-directed learning and strike a balance of individual mastery with small collaboration within the whole community.

Alive Montessori and Private School is staffed with qualified teachers trained in Montessori and Early Childhood Education. Our staff have experience in and knowledge of proper guidance methods suited to Early Childhood Education. Professional development is provided for the staff throughout the year. Child CPR and First Aid training is reviewed annually. We also provide field placement settings for students enrolled in Early Childhood Education Training at Community Colleges in the Toronto area.

#### Parent/Teacher Conferences

Parent-Teacher conferences are scheduled at least twice a year to coincide with Progress Reports. Arrangements to speak with your child's teacher at any time during the year can be scheduled by contacting the homeroom teacher directly or through the office.

Parents/guardians are encouraged to take an active role in our child care centre and regularly discuss what their child(ren) are experiencing with our program. As supported by our program statement, we support positive and responsive interactions among the children, parents/guardians, child care providers and staff, and foster the engagement of and ongoing communication with parents/guardians about the program and their children.

The child will not be permitted to attend without the proper medication on site.

Parents must sign our Consent to Administer Medication form that authorizes staff to administer the adrenaline auto-injector. Parents are responsible to inform staff of any changes to their child's treatment procedures. An EpiPen poster will be posted in each program room throughout the centre.

Our allergy list will be revised as necessary based on the children in our care and the information provided to us in writing by the parents/guardian.

Each program room and food preparation area will post in a visible area a list of known life threatening allergies of all children enrolled in the centre.

An "Administration of the Epi-Pen Procedures and Medical Emergency Procedures", will be posted in each program room.

### Hygiene

Due to Covid-19, teeth brushing activities will be temporarily put on hold. Children will be encouraged to wash their hands frequently.

#### **Food Allergies**

Parents must provide up-to-date information about the child's allergies. Please complete the Emergency Allergy Alert form and complete the consent form for administration of the Epi-pen. Provide three Epi-pens, one to be carried by the student at all times, one to be kept in the student classroom and one to be kept in the office for field trips and as an emergency back up. The allergic student must: take as much responsibility as possible for avoiding the allergen by checking labels and not sharing food.

The school will: identify the allergic students, using the Alert and Consent forms provided by the parents and make every effort to ensure that appropriate alternatives are available whenever treats are available for the entire school In the case of peanut allergies we will discourage parents and students from bringing peanuts or peanut products in lunches and snacks. We will ensure all school personnel are trained to recognize the symptoms of an allergic reaction, know how to administer the Epi-pen and are able to carry out the appropriate emergency procedures.

Alive Montessori and Private School is NOT a peanut free environment. Such conditions are virtually impossible to enforce and create a false sense of security for the allergic children. However, the school is "allergy conscious" and will make every attempt to maintain a safe and healthy learning environment for all children.

#### Snack Foods/Birthday Treats

Parents are encouraged to check labels when purchasing store bought items and to inquire about ingredients in baked goods. Choosing healthy snacks for birthdays and other celebrations shows consideration for those with allergies and the efforts of the school in hygiene and healthy eating. Individual cupcakes are encouraged instead of cakes at this time.

### **Bullying Policy**

The students and staff at Alive Montessori and private School have a right to teach and learn in a supportive, caring and safe environment without the fear of being bullied. The purpose of the anti-bullying policy is to identify bullying behaviour and to help students develop strategies to solve problems in a non-violent manner.

Bullying is not fighting or quarrelling. It is hurting for the purpose of seeing another person upset or in distress. People who bully have intent to harm. Bullying behaviour involves using a greater power to control or dominate another. Bullying behaviour of any type is unacceptable and will be dealt with firmly.

Bullying behaviour may appear as Verbal Abuse: Name calling, making fun of someone who says something wrong or different, or bossing others around. It may be directed towards gender, ethnic origin, physical/social difference, or personality. Two commonly used forms of abuse are nicknames and physical threats. The latter can be used to extort or steal property from another person. Physical Abuse: Bullying behaviour in this instance often incorporates pushing, shoving, kicking, Exclusion: May include ignoring, gossiping or spreading rumours which result in the isolation of an individual from a group setting.

Bullying behaviour may take place in the school, outside the school, to and from school.

Usually the bullying behaviour takes place where an authority figure is out of sight, including situations beyond the school facility.

# **Role of the School**

The school will, as part of its curriculum, create an awareness of bullying behaviours and tendencies and encourage appropriate ways to behave towards others.

### **Role of the Parents**

Be aware of changes in your child's behaviour that may indicate difficulties at school. Do not encourage your child to fight back; it only makes the situation worse. Instead, encourage appropriate assertiveness and practical self-preservation. Do not let the situation persist for an extended period of time without intervention. It is not normal childhood behaviour or "phase" and it will not go away by itself. Parents must not hesitate to inform the school about bullying activities. Encourage your child to talk. He/she may be ashamed, scared or think that it is their fault.

### Academic Dishonesty Policy

Alive Montessori and Private School is dedicated to enabling students to perform academically to the best of their abilities. Students can only learn where they approach their work with serious intent and integrity. It is essential therefore, that students should be aware of the temptations to act dishonestly and understand the consequences of such actions. Students are expected to acquire skills with respect to documentation of sources and studying, so as to avoid the temptation to plagiarize or cheat.

The School will not tolerate any acts of plagiarism, cheating, collusion or other act by which a student misrepresents his academic effort or achievement.

"Plagiarism occurs when a student knowingly represents as his or her own, any idea or work of another person in any academic assignment, test or examination.

"Cheating" occurs when a student obtains an unfair advantage over other students in the context of the preparation or performance of any academic assignment, test or examination. "Collusion" occurs when a student knowingly allows his or her work to be submitted by another student.
